WHAT HAS become of Mr. Bailey, of Texas, and Mr. Forsaker, of Ohio? In this great hour of our people's need, when the spoils of the spoils are being divided, where are they?

It is interesting to note while reading of Spain's terrible misgovernment at home as well as in her colonies that the spoils of the spoils are being divided in its perfection.

The philosopher of Georgia is hitting some Crawfordville talent pretty hard when he remarks: "De man dat bollers de louder for war ain't got no voice left to answer roll call."

Tax Nicaragua canal would make us the maritime power of the twentieth century. Without it New York and San Francisco are separated by 15,000 miles of sea room. A canal would shorten the route over 10,000 miles, or three times the distance across the Atlantic. Our nearest experience with the Oregon, and our present only in relieving Admiral Dewey, are the greatest of our age for the building of the canal that could be added.

ADMIRAL DEWEY'S brave men are to receive a financial reward for their good work in Manila harbor, in addition to the thanks of the president, the congress, and the people. It was last week discovered that there is a law authorizing the payment of \$100 for each man on an enemy's ship of war that is destroyed in action. As the entire eleven ships of the Spanish fleet were destroyed and they are known to have been heavily manned in the expectation of having to furnish prize crews for Dewey's squadron, which they thought they would capture, it is estimated that about \$200,000 will be divided among Dewey's men.

This country hasn't done so badly after all, of late years in the development of a navy. Fifteen years ago our flag was not flying on a single modern ship of war. Nor could we make armor plate in this country. Since then we have built 114 vessels of all classes, with guns capable of throwing at every full charge 122,300 pounds of metal; the authorization of vessels of our new navy by 1910, 1911, 1912, and
